I. AUTHORSHIP AND PUBLICATION DECLARATION

We approve the submission of this paper to the Journal of Medicine and Life for publication. We confirm that neither the manuscript submitted nor any part of it has been published nor is being considered for publication elsewhere in any language or form (abstracts < 250 words excepted). We also confirm that our (co-)authorship is based on the following conditions:

1. Each author has participated sufficiently in the work represented by the manuscript to take public responsibility for the content. Participation has included conception or design of the work presented by the manuscript and/or drafting the manuscript or revising it for critically important content, and final approval of the version to be published.
2. Authorship has not been justified solely by obtaining financial resources.
3. Each part of the manuscript and each step in the work that led to the publication is attributable to at least one author.
4. Persons who have contributed intellectually to the manuscript but whose contributions do not justify authorship are named and their particular contribution described. Such persons have given their permission to be named.
5. The given sequence of authors is the consensus of all contributors.
6. After submitting the authorship form signed by all authors, you agree that adding or removing authors is no longer possible.

II. CONFLICT OF INTEREST DECLARATION

Each of us declares the following current or past (within the last 12 months) interest in relationship with a company/organization* that could benefit financially from the publication of the data in our manuscript.

*Please explain the interest/relationship on a separate sheet of paper where appropriate.
